

Setting up SDwifi on an iPhone

Steps for joining SDwifi on an iPhone

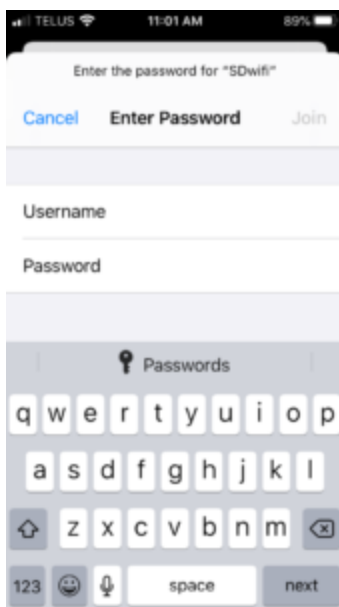

1. Open Settings

2. Select Wi-Fi

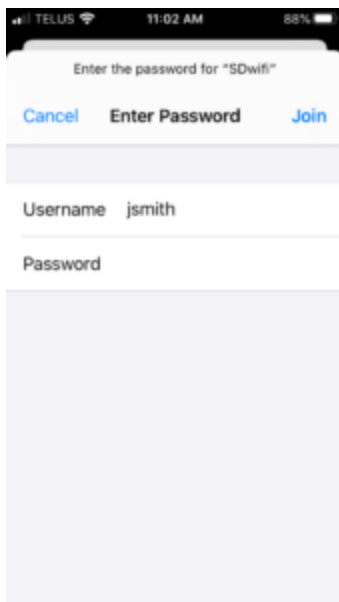

3. Once the Wi-Fi list populates choose SDwifi

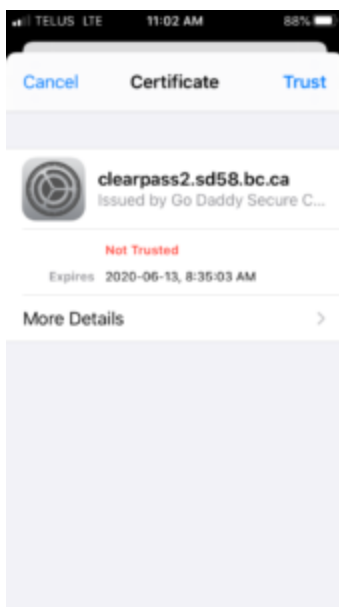

4. In the Username field enter the first part of your school district email (jsmith instead of jsmith@365.sd58.bc.ca)

In the Password field, enter the same password you use to sign into your email or school computer

Then press Join

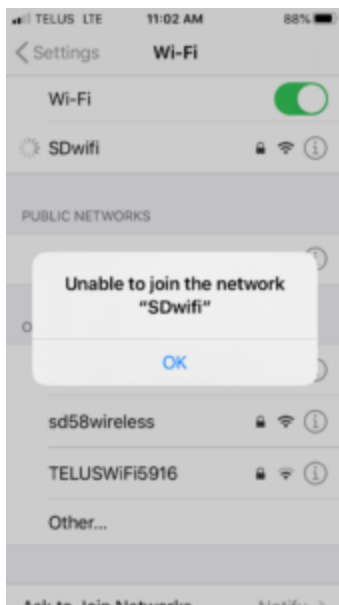

5. When the Certificate window pops up press Trust at the top right

6. If you have entered your Username and Password correctly, you should see a checkmark beside SDwifi

7. If a popup comes up with "Incorrect Password for SDwifi" then you need to try again, it is case sensitive.
